Agreement of Understanding: The signatures below, of the participant and parent/guardian, indicate an understanding that this is a provisional experience where youth from different units will form a crew at Maine High Adventure, BSA (MHA). The adult leadership will be provided by MHA. The trek itinerary for their experience will be developed by the crew and the staff of MHA, and will be based upon crew input, interpretation of crew skill level by MHA, and in consideration of any and all safety, environmental, and logistical factors that may exist, or be anticipated at the time of the trek. The signatures below also indicate that the participant is willing to cooperate in a group experience where teamwork, trust, respect, and the values/principles of Scouting are important requirements for a positive trek experience. Inappropriate behavior will not be tolerated, and may be justification for removal from the trek and return home at the crew member's expense.
